

??

Dot-to-Dot

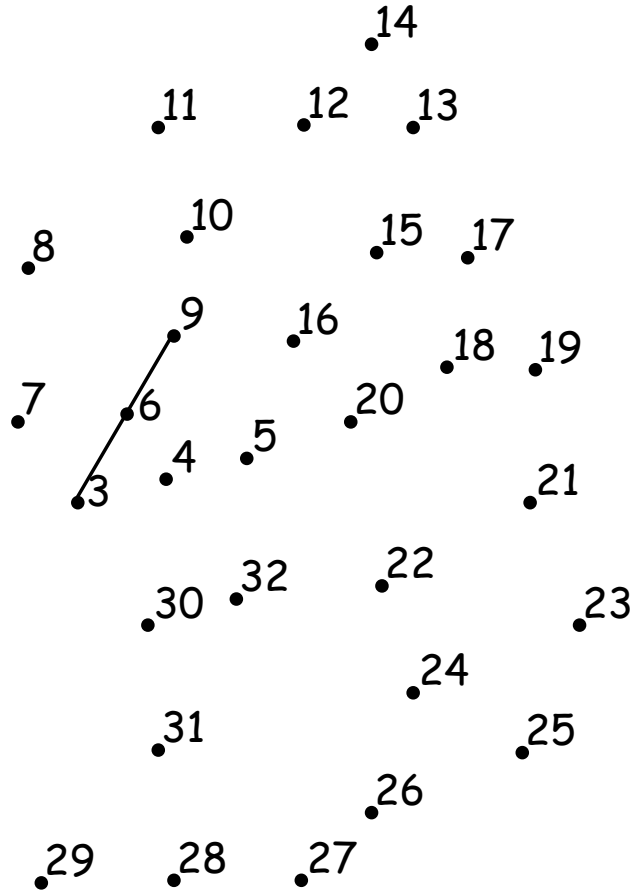

1. Connect in order the dots that have an **even** number.

When you are finished, draw a line from the last even number to the first even number.

2. Describe the picture you have drawn.

3. Connect in order the dots that have the numbers you say when you count by 3's, starting with 3. (We have gotten you started.)

When you are finished, draw a line back to 3, and also a line from 3 to 21.

4. Describe the picture you have drawn.
